## Farmers' Chautauqua A Complete Success

The first Farmers' Chautauqua, held in Monitor last week, was a complete success in every way and will, without a doubt, become an annual event.

The meetings, which were held in the Big Hall, were well attended and proved interesting to all who availed themselves of the opportunity of being present. Lectures, moving pictures and demonstrations made up the program for the three days and every minute of the six sessions was filled with a message of vital interest to all farmers. Some of the topics taken up were: Poultry, School Fairs, Boys' & Girls' Pig Clubs, Soil Drift, Grasses, Sheep, Egg & Poultry Marketing, Horses, Cattle, Marketing Live Stock, Creameries, Feeds & Feeding, Hogs, Etc.

Both Dominion and Provincial Governments sent down specialists on these various subjects and the information that they imparted was well worth going to hear. Each speaker possessed a clear and concise grasp of his subject and several charts were used to impress upon the audience many of the points more clearly and in brief form. As lack of space will not permit us to give a resume of all the lectures we will have to pass that by.

Thos Partridge and S. King

acted as Chairmen, introducing the speakers as they appeared on the platform.

At the close of each address an opportunity was afforded the audience of asking questions on any point not clearly understood, and much information was picked up in this manner. Several hundred pamphlets and folders, on various farm topics, were distributed.

Judging from the enthusiasm displayed last week the Chautauqua will be made an annual event which will be eagerly looked forward to by everyone in the district.

The following speakers filled out the well-rounded program: G. M. Cornie, Dom'n Poultry Comm.; H. W. Scott, Provincial District Agriculturist; Duncan Brown, Dom. Live Stock Com.; F. G. Freeborn, Manager Hog & Sheep Branch; G. W. W. Scott, Prov. Dairy Comm.; N. Curtis, Manager Cattle Marketing Branch; N. A. Larson, Alix Creamery; T. McFadden, Edmonton City Dairy; T. R. Adams, Egg Marketing Service; J. Shuckleton, Manager Prov. Poultry Plant; J. H. Hare, Prov. Poultry Com.; W. F. Hargrove, School Insp. Gray; H. W. Weed; Jas Taylor, local Bank staff.

At the close of the meetings a hearty vote of thanks was tendered those who contributed to the program and all who helped to make this first Chautauqua a success.

Boy! Page Mr. Spring.

## Local Happenings

The Monitor Orchestra will give a Dance, in the Big Hall, on Friday evening April the 7th.

The Rev. W. S. Wickenden will (D. V.) give a Lantern Lecture on the "Life of Christ" in Stonelaw School on Friday, Mar. 31st, at 7.30 p. m. All are welcome.

W. Schroer and family returned home, last week, after spending the winter at Springfield, Ill.

There will be a Social and Dance in the Creek Valley School tomorrow evening, Friday.

M. A. Vanhorn has resigned as manager of the local baseball team, having notified the Executive to this effect.

Rev. W.S. Wickenden returned home on Thursday after a two-week's visit at Saskatoon and Prince Albert.

The weather has changed for the better again and once more the water is running down the streets. The cold snap the first of the week gave us a scare, it being 10 below early Tuesday morning.

## Abraham Lincoln's Advice

With the approach of Spring, and a revival of business activity following a winter characterized by much unemployment and the necessity for the distribution of relief on a large scale by Governments, municipalities and charitable organizations, the air is filled with rumors of impending strikes and industrial disturbances. The coal miners of Canada and the United States threaten a walk-out to enforce their demand for a six-hour day and a five-day work week, while the engineering and other trades in Great Britain are also resorting to extreme measures.

It would naturally have been thought that, instead of creating conditions which mean idleness, not only for those going out on strike, but for countless thousands engaged in other trades which are dependent upon a plentiful supply of coal, and instead of striving for less work and employment, the lessons of the past year would have taught all men to exert themselves to create more work in order that, with the employment of all and renewed activity, there would be better times and a larger measure of prosperity for all.

However, it would appear that the fallacious teaching of paid agitators, that a reduction in working hours and days below a reasonable limit must inevitably provide work for a larger number, still influences many of the world's workers. The theory that the world must have a certain quantity of any given article, and that if each individual produces a smaller quantity of it, a larger number must be employed to make up the required total, is a false theory. It is possible to so enhance the cost of an article as to make it prohibitive, and so seriously reduce the demand, that, instead of there being any increase in employment in such production, there is a damaging decrease.

Again, those who preach this false doctrine lose sight of the fact that mankind can get along without an amazingly large number of things if circumstances force them to do so. The experiences of the war should have been sufficient to thoroughly convince all people of this fact.

Last year the coal miners in Great Britain sought to dictate to the whole nation, and in tying up the coal mining industry they not only inflicted enormous losses on themselves, but dealt a blow at Britain's position as a great coal exporting country from which it has not yet recovered. Valuable properties were so seriously damaged that even yet they have not been restored to their old-time producing capacity, and fewer men are employed.

Canada's workers would do well to heed the advice once given by Abraham Lincoln, himself a worker and a son of the people. Lincoln said: "Property is the fruit of labor; property is desirable; it is a positive good in the world. That some should be rich shows that others may become rich, and hence, is just encouragement to industry and enterprise. Let not him who is hopeless pull down the house of another, but let him build one for himself, thus assuring, by example, that his own shall be safe from violence when built."

The man who gains a competence in this world, or amasses wealth, does not do so by working as little as he possibly can, or by skimping the work he does. The world's rich men are among its most industrious and hardest workers. Their aim in life is not to accomplish as little constructive, productive work as possible in the course of a day, but rather to strive for a maximum of results.

If men who now regard their position as hopeless, and are envious of the success of their fellows, would but follow Lincoln's advice and get busy and exert themselves, not as little as possible, but to the full extent of their powers, they could quickly establish themselves and make a worthy place for themselves in the world. But they will never get anywhere by simply criticizing what others do and striving to tear down what others have built up. They should change their tactics, and, instead of endeavoring to do as little as possible, and skimping that little, try the plan of exerting all their efforts and endeavoring to achieve a maximum of good work accomplished during the full period of a reasonable long working day.

What, this old world needs is not more spare time, more sport, more entertainment and pleasure, but more work, steady work, constructive and productive work. The busiest man or woman is the happiest, healthiest, most prosperous.

## A Beautiful Complexion & Admiration

Ladies—A few days' treatment with **CARTER'S LITTLE LIVER PILLS** will do more to clean up the skin than all the beauty treatments in creation. An imperfect complexion is caused by a sluggish liver. Millions of people old young and middle aged take them for Biliousness, Dizziness, Sick Headache, Liver Complaint and for Constipation, Pimples and Blisters, etc. They ease the misery of Constipation.

Small Pill—Small Dose—Small Price

Near Bingen, in Germany, is a famous echo which will toss a sound to and fro no less than seventy times.

W. N. U. 1413

## Joys of Rural Life

City Man Had Nothing on His Country Brother

A boy left the farm and got a job in the city. He wrote a letter to his brother, who elected to stick to his farm, telling the joys of city life, in which he said:

"Thursday we auto'd out to the country club, where we golfed until dark. Then we motored to the beach for the weekend."  
 "The brother on the farm wrote back: 'Yesterday we bugied to town and baseballed all the afternoon. Then we went to Ned's and poked until morning. Today we muled out to the cornfield and gee-hawed until sundown. Then we suppered and then we piped for a while. After that we staired up to our room and bedstead until the clock fived.'"

## Addition

Prisoner.—Good morning, Judge. Judge.—How old are you? "Twenty-nine."  
 "You'll be thirty when you get out."  
 —Chicago Phoenix.

**Cause of Asthma.** No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from animals and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

In Ceylon are to be found snails which attain a length of from four to five inches.

Minard's Liniment for the Grippe and Flu

## A Firm Foundation

Franco-British Alliance May Result in United Europe

We doubt if much good will come out of Genoa, but if France and Great Britain go there as allies there cannot be much harm. Abdul Hamid remained in Constantinople long after authority had left his nerveless fingers simply owing to the jealousies of the European powers. Bolshevism in its turn will succumb when it finds itself face to face with a united Europe. A Franco-British alliance is the only foundation on which that unity can be built.—London Morning Post.

## Manslaughter in 2nd Degree

Using a razor—bad stuff—but many people do it for their corns. The only remedy that is painless and sure is Putnam's Corn Extractor, which does remove warts and corns, cleans them right off. Refuse a substitute for "Putnam's," 25c everywhere.

## Identifying It

Nina.—Tom, isn't that the same suit you wore last year?

Tom.—Yes, and it's the same suit you asked me last year if it wasn't the same suit I had the year before.—Harper's.

## SPRING IMPURITIES DUE TO POOR BLOOD

A Tonic Medicine a Necessity at This Season

Dr. Williams' Pink Pills are an all-year-round tonic for the blood and nerves. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to enrich the blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disgusting pimples, eruptions and boils—Dr. Williams' Pink Pills clear the skin because they go to the root of the trouble in the blood. In the spring anemia, rheumatism, indigestion, neuralgia and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but does not help the blood. On the other hand, Dr. Williams' Pink Pills enrich the blood which reaches every nerve and every organ in the body, bring new strength and vigor to weak easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you. Sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

A course in the maintenance and repairing of motor cars is now a feature of one of the largest American colleges.

## REMARKABLE LETTER

Canadian Woman Recommends Lydia E. Pinkham's Vegetable Compound

Winnipeg, Manitoba.—"I can not speak too highly of what Lydia E. Pinkham's Vegetable Compound has done for me. I was a nervous wreck and I just had to force myself to do my work. Life was a misery and work was a burden. Even the sound of my own children playing made me feel as if I must scream if they did not get away from me. I could not even speak right to my husband. The doctor said that he could do nothing for me owing to my condition, but told me to expect another miscarriage. My husband's grandmother advised me to take Lydia E. Pinkham's Vegetable Compound. I started it right away and everyone noticed what a different woman I was in a short time. I went and engaged my doctor and he did not know me. I was so well. I was able to do my work once more and it was a pleasure, not a burden. Now I have a 'bouncing baby' to use the doctor's own words. I am able to nurse him and enjoy doing my work. I can not help recommending such a medicine, and anyone seeing me before I took it and seeing me now, can see what it does or me. What it has done for me it can do for anyone in the same condition. I am only too glad for you to use my testimonial."—Mrs. EMILY DAVIS, 721 McGee St., Winnipeg, Manitoba.

## He Never Saw Wife So Well And Strong Says Railroad Man

"If anybody wants to hear about Tanlac, they ought to come out to my house. My wife is so enthusiastic I believe she would be willing to talk all day about it," said Mr. Burns, St. Rose, Man., well-known Canadian National Railroad man.

"It is natural that people should be delighted with the results she has obtained, because she is like a different person now from what she had been

for three years past. Stomach trouble and indigestion made life miserable for her and she was falling day by day.

"Tanic proved to be the very thing she needed. She says she never felt better in her life and I can believe it, because I know I never saw her looking as well and strong as she does now."

Tanic is sold by all good druggists.

## When Milady Goes a-Walking

Madame Fashion is very busy now preparing for spring, in spite of the gloomy winter weather. Here is a coat which she has designed for afternoon wear. The blouse back, which is very popular just now, will be worn extensively this coming season. It is of tan twill and the color value is greatly enhanced by the self-toned embroidery.

## For Scientific Research

Give Grants for Research on the Action of Alkali

The Saskatchewan and Alberta Governments and the Canadian Pacific Railway Co. have this year contributed \$1,000, and the Advisory Council on Industrial Research has contributed \$5,000 towards the research on alkali action through the ground water on concrete piping, piles, etc. Already more than \$200,000 has been spent on this work by the Greater Winnipeg Water District Board. The City of Winnipeg recently made a grant towards the work of \$200. The action of alkali ground water on the concrete pipe mains of the Greater Winnipeg Water District has already cost a great sum of money. The engineers have been compelled to put in a subsidiary pipeline to carry away the ground water.

Rub it in for Lame Back.—A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

## Wealth in North Land

According to Lieut-Colonel A. C. Garner, of Regina, the principal wealth of the north country lies in its minerals. That while some of the land in the extreme north might be reclaimed and made available for farming, the greatest consideration must be given to the development of the mineral resources.

Use Minard's Liniment for the Flu

It pays to patronize home industry. Buy from the merchants in your own town.

**ARE YOU A MOTHER?**  
 Mrs. Dalton tells of a Well-known Doctor's Prescription that is safe for Young Mothers to take as a Tonic and Nerveine because it contains no harmful ingredient.

London, Ont.—"Dr. Pierce's Favorite Prescription saved my life years ago and for that reason I am most enthusiastic in my recommendation of it to women who are ailing and weak. I was taken with the measles when in an expectant condition; then blood poisoning set in and my family became greatly alarmed. The doctor advised them to give me Dr. Pierce's Favorite Prescription and I took several bottles of it and was restored to absolutely perfect health. I later took Favorite Prescription as a tonic and nerveine and received great benefit from it. As a woman's medicine it is unequalled."—Mrs. Jennie Dalton, 787 York St.

**HEALTH BRINGS BEAUTY**  
 Your Health is Vital to You  
 Barrie, Ont.—"I was suffering from a rundown system some time ago, was unfit to perform my daily duties, and was advised to try Dr. Pierce's Favorite Prescription. I tried it, took two bottles, and was restored to my natural strength. I cannot praise Dr. Pierce's medicine too highly and will be willing to write to any one sending stamped envelope."—Mrs. A. H. Bishop, R. R. No. 1. You'll soon feel better if you obtain this "Prescription" of Dr. Pierce's at your nearest drug store, in tablets or liquid, or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial size tablets and write for free medical advice.

## More Elevators Needed To Handle Increasing Grain Crops Of Canada

An echo of the tremendous Canadian crop of 1921 which, diverted from the usual channels which took it across the border, rushed to Canadian, Atlantic and Pacific ports, taxing their capacities to the limit, is being heard in the demand for increased elevator accommodation. A new factor has entered into the situation giving Canada and Dominion ports greater control of the traffic and export of her own crop, and it is recognized that vastly increased storage space is going to be needed to accommodate future crops pending their shipping.

The consistent annual increases in the volume of Canada's grain crop has rendered imperative a corresponding yearly increase in elevator storage capacity, and each year sees new elevators dotting the grain growing provinces. At the last time statistics were taken, Canada had 3,775 elevators with an aggregate capacity of 214,279,964 bushels. The insistent demand at the present time is not at railway shipping points, but in the expectation of handling a greater proportion of Canadian grain at Canadian ports these terminals are facing the need of greater storage space. Though 1921 was for Canada a record grain handling year, more traffic would have accrued to her could more have been handled, and on both the Atlantic and Pacific a certain amount of business had to be refused. It is in this direction that expansion is planned.

The Harbor Commissioners at Montreal are working on plans for a grain elevator of ten million bushels capacity which will be the most capacious in the world, outbidding by half a million bushels that elevator at Port Arthur which at present holds the honor. The growth of the volume of grain in and out of the Port of Montreal has made the construction of more elevator space absolutely essential, as during the past year, which exceeded in activity anything Montreal has ever known, business had to be refused owing to lack of accommodation. The sudden effect of the United States tariff on Montreal traffic is revealed in the fact that it was considered that the present volume of grain traffic would not be reached for fifteen years and the present capacity, 10,250,000 bushels, considered adequate.

Additional elevator accommodation is to be provided for the port of Vancouver during the year according to present plans. Here the need is serious, the present capacity of the port, 1,266,000 bushels, being inadequate and the capabilities of the port being severely strained in the past season.

Vancouver entered upon a new era of activity when it was discovered that grain could be shipped without injury via the Panama Canal route to Europe, and an ever-increasing proportion of the prairie provinces' crop is destined to go out in that way. It is expected that by the end of the season about four million bushels of wheat will have left Vancouver, and only the lack of elevator accommodation prevents the handling of a greater volume.

It is announced that another half million is to be added to Fort William's capacity, and even the 55,000, 000 bushels accommodation of the Twin Ports is experiencing the strain of the lakes grain traffic on the way to the Atlantic. Vast stores of grain accumulate here during the rush season following the western harvest, and the congestion is relieved on the railroads by shipping the grain in specially constructed vessels across the lakes. A great volume of United States grain in the 1921 season reached Montreal by this route.

These items refer only to a somewhat extraordinary demand for terminal elevator accommodation brought about by sudden conditions. At the same time the ordinary increase of country elevators and inter-elevators contiguous to the harvest fields, made necessary by the yearly swelling grain crop, is being met. And all this is making for increased activity in a hundred industrial lines in which this progress is reflected.

W. N. U. 1413

## National Council of Education

Triennial Conference to be Held in Toronto in 1923

Into the minds of a group of citizens of Western Canada, there came in 1917 the idea that a concerted attempt should be made to rally the best public opinion of the nation behind the schools of the Dominion, the direction of which is assigned by our constitution to the Province. It was contended that the Education Departments cannot be fully effective if unsupported by an interested and alert public opinion.

The preliminary conference held at Winnipeg in October, 1919, called the National Council into being. The next conference is now being organized by that council as a definite expression of its aim and proposed activities, as a means of creating public opinion and invoking its entire force on behalf of an educational ideal. This conference is to be held at Toronto at Easter, 1923, the entire cost of its organization having been most generously undertaken by the Rotary Club of that city. Toronto will be made the conference-centre for a Dominion-wide educational campaign in which all cities and towns will be simultaneously interested by notable speakers. With this in view, committees are now in course of constitution at the more important points, and through them, Canada will be asked to consider vital aspects of Education, and formulate opinion and suggestion as a means of interesting the public in the pressing need of a "new light" in education. In its widest interpretation, For these committees, a programme of subjects is being prepared in which discussion and research is desirable at this stage. These topics might usefully include the "Pros and Cons of Co-Education," "The New Zealand system of School Administration" (New Zealand, with a population of one and a quarter million, has only nine school boards), "The Cinema in Education," "The Residential Consolidated School for Rural Districts," etc., etc. The programme for the conference itself has not yet been decided upon but proposals will be submitted to the executive of the council and to the Toronto Committee within the next two or three weeks.

Representation from Great Britain and France on what is hoped may be considered a satisfactory basis to all, has been assured, and the council must now concern itself with the important question of speakers to represent the Dominion and the United States.

Invitations will be issued to departments of education throughout the Empire and of certain foreign countries, to educationalists of outstanding eminence, and to organizations of an educational character, and the conference organized on as impressive a scale as possible.

## Japanese Have Coast

Charted and Mapped

Interesting Information Given at Ottawa by Hon. H. H. Stevens

The Japanese have every foot of the Pacific coast charted and mapped, which would be a great benefit to them if the growing tendency of the Orientals to move towards the Pacific increases, stated Hon. H. H. Stevens, M.P., who spoke at Ottawa recently. His subject was Asiatic Immigration.

The speaker contended that the Oriental problem was one that required careful consideration as it was one of the most vital difficulties which Canada had to face. Even in some of the centres of population in Ontario the people were beginning to realize that the Orientals provided a problem that required serious consideration. British Columbia has been in constant fear that the regulations might be relaxed and the influx commensured.

## The British Spirit

Speaking at a dinner in Glasgow, Mr. de la Barra, British Consul for Scotland, said the British spirit had so penetrated the national soul of the people of Chili that other countries in the New World called them the Britishers of South America, a name they were proud of.

## Seed Production In The Western Provinces

Saskatchewan, Alberta and British Columbia Provide Seed for Export

"With the extension and growth of seed growing in Canada a new industry of national importance has come to Canada to stay." Such is the observation of an American writer who recently made a tour of this country. This authority also pays high tribute to the Seed Branch of the Dominion Department of Agriculture for the influence it has exerted in bringing about this state of things. After paying special attention to Alberta for that province's advance in seed production, particularly in oats, of which carloads are constantly being shipped to the United States, and in alfalfa, and to Saskatchewan's success with wheat, the writer remarks on the fact that in British Columbia the production of pure seed is a thriving industry and that flower seeds are now grown in that province and exported. In certain coast districts the provincial seed houses have established farms or arranged with local farmers to grow flower seed for the English and continental markets. Our authority adds: "When Canada is able to produce crops that far surpass the products of other countries, it must naturally follow that the seed from which these same prize-winning crops spring is of superior quality."

## Paris Dangerous

Paris has the reputation of being the most dangerous city in the world for traffic deadliness. Of the 50,000 persons struck by taxicabs, automobiles and other automobiles during the last year, 100 died as a result of their injuries. A large proportion were women and children and aged persons.

Cadix, Spain, is one of the most ancient towns in Europe, having been built by the Phoenicians about 1,100 B.C., under the name of Gaddir.

## Complexity Of Myriad Types To Be Found Among Western Farmers

### Successful Poultry Show

Saskatchewan Poultry Fanciers Win Prizes at Regina

Some of the finest birds in Western Canada were exhibited at the poultry show held at Regina recently.

In the classes for Brahamas Light, O. A. Walters, of Grenfell, Sask., was the biggest winner. He carried off first prize for the best cock, first and second prizes for hens, first and second for cockerels, and first and fifth prizes for pullets.

H. K. Goltzick, of Regina, carried off first and second prizes for the best cock in the class of Plymouth Rocks, white; first, second, fourth, fifth and sixth prizes for hens and first, second, third and fourth prizes for pullets. Currie and Knapp, of Brandon, were awarded first prize for the best cockerel.

In the classes for Wyandottes White, Art Servais, of Moose Jaw, carried off first prize for the best cock, first prize for the best hen, first prize for the best pullet and fourth prize for his cockerel.

Wm. Osborne, of Foam Lake, carried off first and second prizes for both cocks and hens in the Orpington white classes.

In the Leghorns, Buff S. C. classes, first second and third awards for cocks, hens, cockerels and pullets were carried off by W. H. Boyle, of Regina. A. J. Gibson, of Regina, won all the first prizes in the classes for Leghorns, White B. C. in the classes for Leghorns, White S. C., first prize for the hen went to P. G. Fisher, of Regina, and for the cockerel and pullet to Geo. Law, of Moose Jaw.

People often refer to the Western Canadian farmer as though he constituted a type. Nothing could be farther from the truth, and the mistake could only be made by those who have never visited the areas of the Western Canadian provinces, slowly being rendered productive, and have not come into contact with the men who are effecting this.

Western Canada is still a territory in a state of transition where the process of shaking down and leveling is still in progress, and its people accordingly comprise a collection of classes and castes, the complexity of a myriad-types and a wide variety of characteristics, all fused into a perfect democracy. Some characteristics, they have in common, certainly, such as are born of the invigorating, virile atmosphere or spring from the life's demand for quick action and rapid thinking, but the impression of sameness is entirely absent and the individual is still the individual. This is after all but natural. Western Canada has become the Mecca of the land-hungry and for those seeking the independence which the land can assure. It is the goal of peoples lured by the same dream from the corners of the globe, a bourn of many new hopes, a land in which faith in oneself and one's capabilities is created anew.

Such instincts and desires are not limited to people of one appearance, one caste, or one intellectual capacity, and so the illers of Western Canada's lands run the entire gamut of human type and trait. They are of every conceivable class and kind, differing in the individual but alike in spirit and endeavor.

It is probably safe to say that the majority of men farming the western provinces have not been farmers all their lives. It is both interesting and significant, certainly, to note that many of these who have come to the top as the Dominion's premier agriculturists had no conception of land activities previous to going to the west. A great proportion undoubtedly adopted farming after having reached maturity. Deep in the hearts of most men there is a love of the land and of the life of the open.

Those who are to be found in Western Canada form an elect band. Many left trades and professions after years of pursuit, often purely from distaste for these callings. Many more, despite success in their business callings, felt the greater glamor of the land and left what they were doing at its beckoning. Many thinkers, tired of the eternal struggle to make a daily wage over a multitude of expenses, sought the land where independence through perseverance and energy was attainable; still others, with growing families and planning for them, saw the greatest future in the basic industry of agriculture as well as opportunity to keep sons and daughters about them. Haunted possibly by the prospect of old age and inability to make adequate provision against it, brought others to take thought of developing a harbor for this period. Many realizing that the true fundamental of wealth lies in the land, and seeing the enviable position of people in old countries whose ancestors were pioneer land settlers, are building up homes to be their posterity's for all time.

They are men who have seen the same vision and followed it; who dream the same dreams and often see their fulfillment in their lifetimes. Were there more genuine thinkers, more men courageous enough to follow their convictions, more actuated by a desire to do the best for themselves and families and to build up prosperity for many lives to come, there would be more settlers upon Western Canada's fertile tracts. As it is, those already there form an enviable band of thinkers and workers to whom posterity will owe much gratitude.

### Best Feed for Laying Hens

Boiled or steamed oats is out of the best whole grain feeds that can be given to fowl. For laying hens it is most excellent. Sprouting oats is also a splendid feed and not only is good for the laying hen but is fine for the young chickens after they are about two weeks old.

Have You Ever Heard of a Horned Screamer?

"YOU will never guess, Stella, dear," said Snookums to the Wishing Fairy, "what we have been or what we have seen?"  
"No, I don't think I can," the little Fairy answered. "So, tell me all about everything, Snookums."  
"Well, to begin with," said Snookums, "we wandered away to the world where humans live and after several little adventures we found ourselves in South America. We rigged up the cunningest little boat out of a broad palm leaf with another leaf as a sail and along we skimmed over the waters of the big Amazon River. When night came on we just remained on our boat, because there were no mosquitoes to bother us. It was much nicer floating around than being bitten to pieces by the horrid insects in some forest."  
"Will I ever forget my experience with mosquitoes once when I spent the night in a thick wood! Goodness, gracious!"  
"Yes," laughed Stella, "you came home very much the worse for wear. Your eyes were all puffed up so that you couldn't see and your body was so swollen that you could hardly move. Poor little Pimble! I remember."  
Pimble giggled as he thought of it, though he hadn't been a bit amused at the time. Not one bit!  
"Well," he said, "to go back to what we were going to tell you, Snookums and I learned all about a very remarkable bird a little smaller than a goose. It is gray-black above with white stomach feathers and has a circle of naked skin around the eyes and on top of its head is a horn about four inches long—a soft—not a hard—horn. It's sort of floppy—a Horned Screamer."  
"And what color legs?" asked Kinkalou, for this little Browline had quietly joined the group for fear he might be missing something.  
"The Screamer's legs are the prettiest things about it," replied Snookums. "They are brilliant red."  
"But," Pimble exclaimed joyously, who, like most people, loves to talk, "if I shall tell you a remarkable thing about a Screamer! On the front curve of each wing are two terribly strong spurs that are used when fighting."  
"And you've forgotten, Pim, dear, to tell Stella about its skin," suggested Snookums.  
"Oh, yes!" he laughed. "This is amazing! What do you suppose lies between the skin and the flesh of the Screamer?"  
As there was no answer to his question he suddenly looked very mysterious. "What usually lies between one's skin and flesh?"  
"Fat," answered Lorykins, who had sauntered up to listen. "Fat; any one knows that!"  
"You're quite correct," Pimble replied, "and in your own particular case you are more than correct! He and he burst out laughing.  
Lasy, greedy Lorykins shuddered uncomfortably, for if there is anything he besides being sleepy and hungry—he is fat!

## Railway News in Brief

Telephone connection has been made between points in Alberta and Saskatchewan, on the line at Loverna and at Provost. No connection has yet been made on the line at Compeer.

There will be a big Auction Sale in town on Saturday April 1st, at 1 o'clock. This sale will be held under the auspices of the Stonelaw U. F. A., and all the articles to be sold have been donated by those living in the surrounding district. The sale will be held at Cramer's Sale Yard.

The spring fever has taken a hold on Gillam and his pal, McGirr, and they are likely to found riding for the Bar U outfit, at the rodeo. Lenstawns they were seen out trying to throw a lariat, last week. A large red bandanna would have completed the picture of these two wild and woolly hombres.

L. Monroe has taken a fancy to the latest craze, the wireless phone, and is keenly interested in this latest project. One of these fine days we may be able to "listen in" on some of the wireless concerts that are now being sent out daily from the broadcasting stations in the States.

## A Miniature Hotel Kitchen

The above interior view is one of the new steel dining cars which are the last word in up-to-date railway construction.

There is not in all Canada a house-wife who would fail to be interested in the kitchen of one of the new up-to-the-minute steel dining cars that are every day moving to and fro across this country. The

kitchen" of the modern flat is often ingeniously planned but generosity could meet with no mortifying task than the putting of a complete hotel kitchen into the same space. It is comparatively small, but it is compactly arranged. The traveller to-day expects to find on the railroad car almost anything in the way of food that his fancy may dictate, and he expects it served in as perfect a manner as in a first-class hotel. The kitchen of the railroad car must be condensed into the dining car. A glance into this kitchen will at once show how ingeniously this has been done, and with what regard for one hundred per cent efficiency and the most perfect cleanliness. Ranges, refrigerators, and cooking utensils are

Refrigerators, and cooking utensils re-

fect the lights in their polished nickel surmounts and ready to hand. In its well appointed place, is every thing that the wayward and whimsical that the experienced chef may require.

What these miniature hotel kitchens can do must be gathered from the fact that in the course of a journey from Montreal to Vancouver 11 meals were served on route. The character of the service of these meals per se here are long stretches during which when it is impossible to obtain supplies, so the chef is able to make up for the lack by the ice-box and orders of each diner are studied to satisfy the capricious appetites of the travellers.

The importance of this branch of a big railroad may be gathered from the fact that the Canadian Pacific has a staff of 150 men in the cafe and refreshment cars, more than operated by any other railroad in the world. The department also looks after the lunch counters, and dining rooms scattered over its 12,000 miles of rail road to serve the three and four million men who are yearly partaken of by travellers on this road, requires the effort of a large staff of cooks, waiters and other operative staff. It serves this large number of meals requiring the yearly consumption of the following quantities of supplies:

Flour	285,000 lbs.
Beef	781,529 "
Ham and Bacon	478,814 "
Apples	1,015,000 "
Butter	343,310 "
Coffee	282,540 "
Tea	101,890 "
Apples	1,015,000 "
Potatoes	1,750,000 "
Eggs	3,229,800 "
Oranges	206,000 "
Crab Apples	100,000 quarts.
Cream	497,280 "
Bread	860,190 loaves.

# Canada's First Scotchman

NOT EXPECTED TO MAN  
AFTER WHEN PLAINS OF  
ADRIAN M. WERZ  
N. 11

**St. Lawrence River** has been the route away from the interior of the continent. It was long known by which Lake Huron, Lake Superior, Lake Michigan, Lake Erie and Lake Ontario were connected up the Ottawa and Mattawa Rivers over Lake Nipissing into Lake Huron to avoid the hostile Indians who had been blocking the way. Travel to-day the chief ports are Montreal and Quebec and the volume shows an ever increasing volume of traffic. The shipping tonnage of 1921 was a record for the port of Montreal—over 700,000 tons registered—a tonnage of 2,806,495 tons registered at and shipped out of the great harbor. This was 165 vessels, or more than double the number of the previous record, made in 1919. It also showed a large increase in the number of vessels trading from Montreal to the Maritime Provinces and Newfoundland, a total of 157 ships registering 293,462 net tons. The trans-Atlantic vessels came under the American flag—American, British, German, Italian, Dutch, French, Swedish, Greek, Jugo-Slav, Spanish, Finnish, Norwegian—and in addition to the Canadian register.

The profession of pilot on the St. Lawrence is therefore very important, as it is to these pilots that route with its rapidly increasing traffic depends for its reputation as to safety. There are fifty licensed pilots between Montreal and Quebec and sixty-two between Quebec and Father Point. The taking on of the pilot always is a picturesque incident to the ocean traveler and brings an interested crowd to the ship's side.

The first known pilot on the St. Lawrence was Abraham Martin, after whom the Plains of Abraham at Quebec are named. In the Jesuit Relations, Abraham Martin is referred to as "dit l'Ecossois" or "called the Scotsman," that in addition to being the first pilot of the King of France, he was also the first known Canadian of Scotch descent. Although married to a French woman and very possibly born in France, Abraham Martin was no doubt de-

scended from one of the numerous soldiers of fortune who fought in the Army of the French King, and was one of the Scotchmen in the Guard which became famous in the days of Louis the Eleventh and plays an important part in Sir Walter Scott's "Queen of the Shrewdward."

Plains of Abraham are named from the site of the battle in which Abraham Martin received from Samuel de Champlain in 1617 at the time of the first settlement of the country. Hebert, the most famous of the first rovinets of Canada, received a grant of land alongside at the same time. Abraham Martin undoubtedly cultivated his own farm, but apparently was not a carpenter and probably had no interest in shipping to get the appointment of King's Pilot.

Canadian Pacific Railway in view of its great steamship line.

He had decided to erect a simple but artistic monument to Abraham Martin, which has been designed by Henri Hebert, the well known French-Canadian artist who is connected with the original Louis Hebert, and thus is particularly fitted to make a monument of granite and stone a pillar crowned by a globe of the world, and a monument of granite in low relief is the Lily of France rising out of the sea. The inscription is in French and English. The latter reading:-

## R. R. Man Says It Kept Him On The Job--Was Nearly Down And Out

"It's all due to Tanlac that I am able to be on the job today, for I was just about down and out when I began taking it," said Harold Blanchard, a trainman on the Canadian National Railway, residing at 330 Donald St., Winnipeg, Man.

"On returning from France, after three years service over there, I was so run down and weak I could hardly work. My appetite was gone and my stomach in such a bad condition that while I did eat seemed to do me harm instead of good. After eating I would bloat terribly and my heart would beat like a hammer against my chest. This palpitation was so bad at times I began to think I had something serious the matter

with my heart. My kidneys had also bothered me for several years and there was a severe pain in the small of my back.

"My sleep at night did me little good, for I would wake up at all hours and then get up feeling as tired as if I hadn't gone to bed at all. In fact, I felt miserable all the time. One day I happened to hear a man telling how much Tanlac had helped him, so I began taking it and the results have been nothing less than remarkable. To put it all in a nut-shell, I am now as strong and well as I ever was in my life and I consider Tanlac well worth recommending to everybody."

Tanlac is sold by leading druggists everywhere.

### Canada's Needs

#### No. 1—Population

In this, the first of a series of articles dealing with some of Canada's outstanding needs as it enters the new year, first attention is given to the subject of population, because, after all, the provision of many other needs and the solution of most national problems hinges upon the question of people.

Some people may challenge the statement that population is Canada's most pressing need. Pointing out that there is much unemployment at the present time, some may argue that we already have more people than we can adequately provide for, and that all efforts at immigration should cease. Others may contend that more important than population is the righting of certain social wrongs and the raising of the moral and religious life of the nation.

There is, of course, room for argument, but the writer would submit that before any country can amount to anything, and before there can be increased employment and a high standard in life, there must be an adequate population to make these things possible. Churches, banks, factories, railways, and so forth, do not make a country. It is people who make a nation. Without population any land will remain a wilderness, but with people, and only with them, and through people can a barren land be made anything else but barren.

Along with the New Year, Canada gets a new national administration. Among the big problems which will confront the new Prime Minister, his cabinet and the new Parliament, not one exceeds in magnitude and importance the question of largely augmenting the population of the Dominion by the introduction of the right class of immigrants.

Fortunately, the whole country is beginning to realize this fact, and east and west a growing public demand is being voiced for the adoption of a wise but vigorous and persistent immigration policy. The immigration portfolio in the new Government calls for the biggest, brainiest, most aggressive man that Mackenzie King can call to his cabinet. The task confronting such a minister is a hard one, but the man who tackles it in earnest and keeps at it will not only make a lasting name for himself, but will confer benefits on Canada which cannot be reckoned in dollars and cents alone.

The new Government is pledged to adopt policies and enact laws designed to bring about a return of prosperity to this Dominion, to keep our factories busy and, generally, to provide ample employment for all citizens. The basic stone in the construction of the national edifice of prosperity is population—people—settled on the vacant lands of Canada, people to work in the development of our vast wealth of raw natural resources, people who will create traffic for our national railways, people who will help to divide the load of taxation and thus make it easier for all.

There are hundreds of thousands of prospective emigrants in the countries of Europe. If number alone was all that counted the task of the new Minister of Immigration would be easy. But while Canada wants quantity, and can absorb tens of thousands of new settlers, they must be of the right type, men and women and children who will prove an asset and not a liability to Canada. Unfits, whether physically, mentally or morally, are not wanted and must be debarred, but the clean, sound, able-bodied should be picked out and encouraged to come, and mere lack of money should not be imposed as a bar to their admittance.

Canada is a land of opportunity. While the days of free homestead lands, which attracted a great influx of settlers in the first decade of the century, are no longer available, there are tens of millions of vacant acres of good agricultural land awaiting settlement. It will be the task of statesmanship and true nation-building to work out a sound policy whereby these lands are made available to settlers on reasonable terms and some assistance given to such settlers to enable them to establish homes with an assurance of success.

The first step towards evolving a practical and successful settlement policy is to discover why it is that so many thousands of people who have come to Canada in the past with the full determination to remain here and make permanent homes for themselves and their children, have, after the lapse of a few years, left the country. There is a weakness, a fault, somewhere. It should be clearly located and steps taken without loss of time to remedy the defect, whatever it may be. That done, then vigorous action should follow to encourage the hardworking, fit people of Europe to come to Canada, establish homes here, assist in the development of our stores of natural wealth, and become good citizens and active participants in the building up of this Dominion.

### General Smuts' Advice

Nations Will Prosper If People "Keep Their Heads"

As General Smuts said, our present troubles will leave us stronger later on. It is better to fight through now, even at some sacrifice, than to put them off and have to deal with bigger ones in the future. Germany is adopting a seemingly easier course. She is producing a temporary and illusory activity by depreciating her currency and trying to live upon paper money. Every Imperial expert is convinced that she is merely postponing the evil day, and that a gigantic crash is inevitable. The mirage of inflation never lasts long. Suddenly it vanishes and reveals the desert. "Keep your heads," says General Smuts to bankers and traders and the public generally. It is the only sound and sane thing to do. We cannot change world conditions and make all the nations prosperous in a moment. But we can at least refrain from making our position worse by needless interruptions of activity and panicky measures.—The Johannesburg Times.

### WHY BEAUTY FADES

A Condition Due Entirely to Poor, Watery Blood

The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown, because this getting tired so easily is probably the first warning symptom of a thinning blood that must be restored if her health is to be preserved.

When the blood becomes thin and impure the patient becomes pale, haggard and anemic. She may tire out easily but suffers from headaches, palpitation of the heart, dizzy spells and a loss of appetite. This condition will go from bad to worse if prompt steps are not taken to increase and enrich the blood supply. To make the rich, red blood that brings the glow of health no other medicine can equal Dr. Williams' Pink Pills. If given a fair trial their use brings rosy cheeks, bright eyes, good appetite and good spirits. Dr. Williams' Pink Pills have made thousands of pale, languid girls active and strong. On the first sign of poor, thin blood mothers should insist upon their daughters taking a fair course of these pills. They will not only restore health, but will save further doctor bills.

Dr. Williams' Pink Pills can be obtained from any dealer in medicine or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Approximately 500,000 pills are eaten daily in ten of the largest cities in the United States.

Simple and Sure.—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

"What are you doing?" "James!" "Sharpening a bit of pencil." "You'll have the union after you me lad. That's a carpenter's job."

### Mother! Clean Child's Bowels With California Fig Syrup

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste out of the bowels, and you have a well, playful child again. Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

### Cascara's Tonight For Liver, Bowels, If Bilious, Headachy

Get a 10-cent box now. You're headachy! You have a bad taste in your mouth, your eyes burn, your skin is yellow, your liver is parched. No wonder you feel mean. Your system is full of bile not properly passed off, and what you need is a cleansing up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are gone by morning with gentle, thorough Cascara—they will keep your liver and bowels clean; stomach sweet, and your head clear for months. Children love to take Cascara's too because they never gripe or sicken.

### British Columbia Developments

Canadian National Railway Official Speaks Optimistically of Outlook

Osborne Scott, general passenger agent, Canadian National Railways, Vancouver, who was in Winnipeg recently attending a conference of officials of western lines with C. A. Hayes, vice-president in charge of traffic, and H. H. Melanson, passenger traffic manager, Toronto, writes with respect to future business activities.

Speaking of progressive developments in his territory, Mr. Scott was in an entirely optimistic mood. He spoke of steadily increasing land settlement in the valleys and on the plateau of Central British Columbia traversed by the Grand Trunk Pacific and also in the valleys of the Thompson and lower Fraser Rivers. Considerable land is already under cultivation in the more recently settled sections and production has reached a shipping stage. The fruit output in the southern part of the province is, of course, the outstanding feature of land production. By the introduction of improved varieties and exercising constant vigilance in combating pests, the old prejudices harbored against British Columbia apples have been dissipated and now our apples are being marketed successfully in Great Britain, United States, Japan, New Zealand and Australia, and also in Eastern Canada, which is world famous for the quality of the staple fruit.

The export of pure bred dairy cattle from British Columbia to Antipodean countries and to Japan is an other interesting feature of our agricultural progress during the past two years. Fruit shipments were found so satisfactory that large repeat orders are now coming. The dairying industry is also expanding fast, the long season of outdoor grazing being a big advantage.

Lumber is the chief export of the province today, our splendid timber products finding ready markets in all quarters of the globe, but other products, both raw and manufactured, are claiming attention of overseas consumers to such an extent that a company, known as the Canadian Foresters Corporation Limited, has been organized with an authorized capital of \$1,000,000 for the purpose of purchasing and exporting the output of British Columbia forests fields, fisheries, factories and mines to all parts of the world. This company has trade connections in both the Orient and Occident. In connection with growing export business, Canadians should feel special pride in knowing that the ships of their Merchant Marine are playing a very important part in carrying out goods to the world's markets. The flag of our merchant fleet is now found on the seven seas of the globe, and wherever it goes Canadian trade goes too. With respect to the lumber business, Mr. Scott states that exports this year to August 31st, amounted to 101,604,256 feet.

As all year round resort of tourists, holiday makers and seekers after health, British Columbia is growing in favor, Mr. Scott declares, and community and other organizations are providing facilities for the accommodation and entertainment of the many visitors. Vancouver is providing a new attraction for that city in the way of an immense pavilion for winter salt water bathing and water sports. It will be located on English Bay and the water will be heated to the proper temperature. Visitors from the prairie provinces, whose numbers increase each succeeding season, have their own social organizations and have enjoyable gatherings and recreative amusements.

The minister who made the following announcement seems to have been prepared for untoward results from his preaching.

"There are some flowers here," he said, "for those who are sick at the close of this service."

"Cheapest of all Oils.—Considering the qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it."

A tank heater that can burn wood, rubbish or soft coal is a boon to farmers, see offer made by the Metal Shingle and Sliding Co., Ltd., Winnipeg. Their ad appearing elsewhere in this issue.

Minard's Liniment For Colds, Etc.

### WEAK HEART

#### NERVES BADLY SHATTERED

Many a woman who should be strong and healthy, full of life and energy is bound by the shackles of ill-health.

Some disease or constitutional disturbance has left its mark in the form of a weak heart, shattered nerves, impoverished blood and an exhausted condition of the whole system.

### MILBURN'S HEART AND NERVE PILLS

They will find a remedy that will supply food for the exhausted nerves, one that will strengthen and regulate the weak heart and invigorate the whole system.

Mrs. W. W. Pearce, 14 Seaton St., Toronto, Ont., writes:—"I was left with a weak heart and in a run down condition from the 'flu.' My nerves were badly shattered, and I had such pains around my heart I could not sleep much at night. I took several doctors' medicines without getting any better. My husband got me to try Milburn's Heart and Nerve Pills, and after I took one box I got relief, and after taking six boxes I have been well and not bothered since."

Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### Record Wheat Shipment

Over Two Million Bushels Harvested On Great Lakes In 1921

Closing of the navigation season on the Great Lakes reveals the fact that for the season of 1921 a total of 108,017,810 bushels of wheat have been shipped since navigation opened; by far the largest quantity ever shipped in the history of upper lake navigation.

### On The Marriage Day

Romance usually ceases, and history begins, and sore corns begin to go when "Putnam's" is applied. It takes out corns, roots, branches, stems—no trace of a single corn left after Putnam's Painless Corn Extractor has done its work. 25c at all dealers. Refuse a substitute.

Be fair to your local merchants. Ask to see his goods and compare prices before sending your money to the mail order houses. You will find that it pays.

### Dyed A Child's Coat And Her Old Skirt

Buy "Diamond Dyes" and follow the simple directions in every package. Don't wonder whether you can dye or not successfully, because perfect home dyeing is guaranteed with Diamond Dyes even on the most difficult material. Worn, faded dresses, skirts, waists, coats, sweaters, stockings, draperies, hangings, everything, becomes new again. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

Sleeping Sickness Cure Professor Newstead, of Liverpool University, says German scientists have discovered a new drug which has proved invaluable in the cure of sleeping sickness.

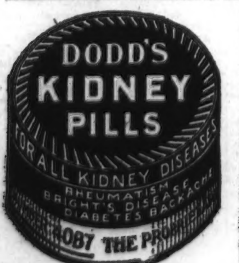

### ARE YOU A MOTHER?

Mrs. Dalton tells of a Well-known Doctor's Prescription that is safe for Young Mothers to take as a Tonic and Nervine. It contains no harmful ingredients.

LONDON, Ont.—Dr. Pierce's Favorite Prescription saved my life years ago and for that reason I am most enthusiastic in my recommendation of it to women who are ailing and weak. I was taken with the measles when in an expectant condition; then blood poisoning set in and my family became greatly alarmed. The doctor advised them to give me Dr. Pierce's Favorite Prescription and I took several bottles of it and was restored to absolutely perfect health. I later took Favorite Prescription as a tonic and nerve and received great benefit from it. As a woman's medicine it is unequalled.—Mrs. Jennie Dalton, 787 York St.

HEALTH BRINGS BEAUTY Your Health is Vital to You. Mrs. Dalton, Ont.—"I was suffering from a run-down system some time ago, and was unable to perform my daily duties, and was advised to try Dr. Pierce's Favorite Prescription. I tried it, took two bottles, and was restored to my natural strength. I cannot praise Dr. Pierce's medicine too highly and will be willing to write to any one sending stamped envelope."—Mrs. A. H. Bishop, R. R. No. 10. You'll soon feel better if you obtain this "Prescription" of Dr. Pierce's at your nearest drug store in tablet or liquid, or send the Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial pkg. tablets and write for free medical advice.

A Nice Job Poetess (calling on newspaper editor).—"Who was that polite little office boy who showed me in?" Editor.—"Oh, that's the page devoted to women."

No surgical operation is necessary in removing corns if Holloway's Corn Remover be used.

Palm trees supply food, timber, fuel, rope fibre, and sometimes material for clothing.

Minard's Liniment For Distemper

W. N. U. 3401

## Proposed Reductions In British Army Meets With Strong Opposition

London.—An interesting debate arose in the House of Commons between Field-Marshal Sir Henry Watson, former chief of the Imperial General Staff, and Sir Laming Worthington-Evans, secretary of War. Field-Marshal Watson opposed a reduction in the army on the ground of Great Britain's many responsibilities in Ireland, India, Egypt and elsewhere, while Sir Laming defended the government's policy of retrenchment.

The field-marshal was supported by a number of Conservatives. He denied that the Russian menace was ended. The war secretary contended that the only way to meet Field-Marshal Watson's demands was to raise a conscript army. Thereupon the field-marshal admitted that he had never dreamed of a conscript army because it would be impossible to order conscripts to serve abroad in peace time.

Sir Laming, in upholding the plan for a reduction, argued that even with Great Britain's enormous responsibilities it was necessary to take some risks.

### Propose Soviet Bond Issue

Old and New Debts Are Included In Proposal

That the Russian Soviet Government should issue bonds covering the whole of Russia's indebtedness is understood to have been the British proposal at the first session of the allies' technical experts meeting here to prepare an agreement for the conference. Bonds not only covering all of Russia's national debts but also municipal and individual loans to the old and new Russian regimes are understood to have been included in the proposal. The bonds would be exempt from interest for five years. Discussions concerning Russia are featuring the conference of the experts although the Soviet Government is not represented in London.

### Order Restored in Nairobi

London.—Nairobi, British Southeast Africa, is all quiet now after the native outbreak. Reuters' correspondent cables: "Witnesses in an enquiry into the trouble state at the magistrate's court that the conduct of the native troops had been excellent. They were on duty eighteen hours without a break and maintained discipline in spite of continuous jeering by the rioters."

### Urges Wireless Chain

London.—The Council of the Empire Press Union passed a resolution deploring the lack of adequate telegraphic communication and urgently pressing the government to immediately carry out some scheme for an imperial wireless chain obtaining general approval throughout the empire.

## WEAK HEART NERVES BADLY SHATTERED

Many a woman who should be strong and healthy, full of life and energy is bound by the shackles of ill-health. Some disease or constitutional disturbance has left its mark in the form of a weak heart, shattered nerves, impoverished blood and an exhausted condition of the whole system.

### MILBURN'S HEART AND NERVE PILLS

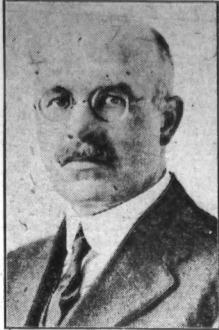

They will find a remedy that will supply food for the exhausted nerves, one that will strengthen and regulate the weak heart and invigorate the whole system.

Mrs. W. W. Pearce, 34 Seaton St., Toronto, Ont., writes:—"I was left with a weak heart and in a run down condition from the 'flu.' My nerves were badly shattered, and I had such pains around my heart I could not sleep much at night. I took several doctors' medicines without getting any better. My husband got me to try Milburn's Heart and Nerve Pills, and after taking six boxes I got better and am not bothered since."

Price: 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## CANADA MUST GUARD AGAINST DISEASES

CHOLERA AND TYPHUS MAY SPREAD THROUGH RUSSIAN IMMIGRANTS

Berlin.—Canada and the United States as well as Central Europe must be on guard against the introduction of cholera and typhus through immigration of Russian refugees, says a warning issued by Dr. A. Schleisinger, of the German Red Cross. Hordes of these refugees are pouring into Germany over the Polish, Latvian and Estonian borders, and many are seeking passports to Canada or the United States, where they have relatives and friends who are financing them for the journey.

Already nearly 50,000 cases exist in Germany, traced to refugees, and German immigrants from the Volga region have been found to be infected.

The German and Polish Governments recognize the danger, but cannot head it off. We can only lessen it, and the necessity of doing this led to the calling of the typhus conference in Warsaw," he said.

## Asks Information On Natural Resources

J. F. Johnston Also Enquiring About Government Merchant Marine

Ottawa.—The operation or non-operation of the vessels of the Canadian Government Merchant Marine is to come up under question in the House of Commons as a result of a series of enquiries filed by J. F. Johnston, Last Mountain, the chief whip of the Progressives. Mr. Johnston has given notice that he will ask the Government to state how many vessels of the merchant marine fleet are being operated and also the average cost per day of the vessels when they are not in operation.

Mr. Johnston also asks for information on the proposed conference regarding the return of natural resources to the western provinces. Mr. Johnston has given notice that he will ask the ministry to state the total acreage and value of lands held by the Dominion Government in Saskatchewan and Alberta from September 1, 1905 to December 31, 1921.

## Air Navigation Must be Developed

Winston Churchill Says Britain Needs Separate Air Ministry

London.—During the House of Commons debate on the air force estimates, Winston Churchill, secretary for the colonies, stoutly defended the need of a separate air ministry and said that Great Britain's insular position had largely disappeared, making progress in air navigation of the highest consequence, not even second to the navy. The vital sea battles of the future would, he said, be fought by airplanes from ships.

Mr. Churchill announced that a committee has been established to examine the relations of the air ministry to the admiralty. A sub-committee of the committee on imperial defence was also being established to enquire into the question of creation of a common brain for the three services while another committee would examine on which service the pooling of the administrative services on all three services depend. Thus the question of establishing a ministry of defence is reaching the threshold of practical politics.

### Against Daylight Saving

Ottawa.—Daylight saving is apparently to be a bone of contention in the present session of parliament. Fred Kay, Liberal for Mistassqui, Que., has given notice of a resolution that, "In the opinion of this House, it is desirable that legislation be introduced during the present session to prohibit the adoption of daylight saving time in any part of Canada."

## British Officers for B.C.

Young Officers from India May Settle on Land in British Columbia  
Victoria, B.C.—Major J. W. Clark, in charge of soldiers' settlement work under the department of lands, will leave soon for India.

Several hundred young British officers are being paid out of the Indian army, and at present the British Government is making arrangements to assist their assimilation into civil life in various parts of the Dominion. All of these young officers will have from two to three thousand pounds each.

A few days ago the India office in London cabled the Provincial Government and offered to pay half the expenses of sending a British Columbia representative to India to interview these young officers with the idea that they would come direct from India to British Columbia. It is the intention to place them, if satisfactory arrangements can be concluded, upon lands in the South Okanagan irrigation project.

## Further Conference On Embargo Favored

Cities of Great Britain Asked for Views on Matter

London.—Representations on the subject of the importation of Canadian steer cattle have been addressed to the city of London by the Aberdeen County Council, Edinburgh and Glasgow City Councils and the Parliamentary Committee of the co-operative congress as well as other bodies, in favor of a further national conference being called by the Lord Mayor at the Guildhall. The cattle markets' committee of the corporation of the city of London has now communicated with all the cities in Great Britain with a population of 25,000 and upwards, inviting their views on the matter.

### May Send Troops to Ulster

London.—The British Government may have to consider whether it will be possible to place a cordon of imperial troops between the warring elements on the Ulster frontier, Winston Churchill, the colonial secretary, stated in the House of Commons.

It will Prevent Ulcerated Throat.—At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

It pays to patronize home industry. Buy from the merchants in your own town.

Minard's Liniment Co., Ltd., Vancouver, B.C.

## Partial Moratorium Is Granted To Germany Under Certain Conditions

## ONTARIO WILL SEIZE LIQUOR IN TRANSIT

ATTORNEY GENERAL WANTS TO KNOW HOW LAW STANDS REGARDING EXPORT

Toronto.—Two recent liquor seizures at Oakville and Hamilton have given rise to an announcement by Attorney General W. E. Raney that all liquor shipments intercepted upon a highway in Ontario will be confiscated and held until such time as the courts pass upon the legality of conditions under which they were in transit.

Mr. Raney said that it was his intention to learn exactly how the law stood in regard to the export of liquor. In order to do this he would press a test case to the highest court. He intimated that legislation might be brought to bear immediately in regard to the present wholesale transportation of liquor, it not being necessary to await the final decision of the courts in this respect.

## Object to Orientals

Receiving Education at Expense of Taxpayers in British Columbia

Ottawa.—The House heard something of the perils of Oriental immigration when a British Columbia Progressive had the floor—L. G. McBride, of Cariboo.

Colonial immigration was costing the country millions of dollars, Mr. McBride said, and the effect it would have on civilization could not be ignored. Orientals would not assimilate, and the white and yellow races would never associate. They should not be brought together. He declared that in 1910 only 20 Japanese were born in British Columbia, but in 1920 the number had grown to 657. In 1910, 17 Japanese were born in British Columbia to every 1,000 white. In 1920, the foreigners were 69 Japanese to 1,000 white.

Orientals were receiving their education at the expense of the British Columbia taxpayers, Mr. McBride continued. In Vancouver it cost \$60,000 to educate Orientals last year. The influx of Japanese and Chinese tended to lower the moral and laboring standards of the community. It was a situation which must be ended at once.

"We think about Orientals now, what you will think about them in 25 years," Mr. McBride added.

## Dye Skirt, Dress Or Faded Draperies In Diamond Dyes

Each package of "Diamond Dyes" contains directions so simple that any woman can dye or tint faded, shabby skirts, dresses, waists, coats, sweaters, stockings, hosiery, and everything like new. Buy "Diamond Dyes"—no other kind—no matter how shabby your clothing is, even if you have never dyed before. Tell your druggist whether the material you wish to dye is silk or wool, whether it is linen, cotton, or mixed goods. Diamond Dyes never attack, spot, fade, or run.

## France to Retain Army

Must be Prepared to Guard Against German Menace in Future

Paris.—"France must have three men to one man for Germany as a standing army when the zero hour ends again," said General De Castelnau, chairman of the army commission in the Chamber of deputies, advocating the eighteen months' service bill as sponsored by the commission.

"Germany," General Castelnau continued, "has seven divisions of infantry and three of cavalry, and these forces can be trebled over night. The League of Nations has not yet realized militarily that the U.S. absolutely refuses to cross its threshold. We are a great pacifist nation, but we cannot vouch for others. Thus we must remain attached to the principle of an armed nation."

The eighteen months bill now before the Chamber of Deputies provides for thirty-two metropolitan divisions ready for immediate action.

Hong Kong has a slave colony where girls are sold as low as 48 a head.

Paris.—The conditions under which the reparations commission will grant Germany a partial moratorium are announced. They include perfect autonomy for the Reichsbank and new legislation to prevent evasion of German capital, the legislation to be ready for application upon a fixed date.

A number of reforms in German financial methods are stipulated. These must go into effect at fixed dates beginning May 31. New resources for reparations money must be found and the funds collected under the control of the allied committee on guarantees which will pass upon their effectiveness and probable yield. If they are found insufficient the reparations commission will consider a number of other measures, including a domestic or foreign loan and eventually a levy upon capital in Germany.

It is stipulated that if reparation payments in kind to the value of 1,500,000 gold marks yearly are not entirely distributed the balance may be required in cash.

If the German Government fails to apply the reforms upon which the partial moratorium is conditioned, the allies may resort to the terms of the annex to the treaty of Versailles authorizing them to take further pledges as a guarantee for reparations payments.

The commission upheld the figures arrived at during the recent Cannes conference for Germany's payments in 1922—cash payments of 720,000,000 gold marks and 1,450,000,000 marks in kind.

The text of the decision of the commission were immediately forwarded to Germany and the various allied governments.

## Extending Paper Mill

Work Being Commenced on Building at Port Arthur

Port Arthur, Ont.—A. G. Pounford, manager of the Port Arthur Division of the Provincial Paper Mills Limited, announced the actual commencement of work on the construction of a paper mill extension to the company's present plant.

The extension is to be completed by May 1, 1923, and at an estimated cost of \$1,500,000. The mill will be equipped with one 145 book machine capable of turning out thirty tons of book paper a day. The main market for the product will be Western Canada.

## Lords' Vote Defeats Government

London.—The Government was defeated in the House of Lords by the adoption of an amendment to the Irish Free State Bill to guarantee pensions to Irish civil servants. The vote was 42 to 40.

### Successful Air Trip

St. John's, Nfld.—The air mail in charge of Pilot V. H. Bennett and carrying one passenger, made a successful trip from Bolwood to Twillingate.

## "They Certainly Did Help Me"

WHY PASCAL THEBAUD RECOMMENDS DODD'S KIDNEY PILLS

New Brunswick Man Now in Good Health Advises All Sufferers from Kidney Trouble to Use Dodd's Kidney Pills

Village St. Jean, Kent Co., N.B. (Special).—"Dodd's Kidney Pills certainly helped me."

Such is the emphatic statement of Pascal Thebaud, a well-known resident of this village. "I was very ill of Kidney disease," Mr. Thebaud continues. "In the morning I was so weak I could not get up before mid-day. I took three boxes of Dodd's Kidney Pills and they did me a lot of good."

"Now I am well again and I advise any person suffering from Kidney disease to use Dodd's Kidney Pills." Dodd's Kidney Pills are known in every corner of Canada as the old reliable Canadian Kidney remedy. They are known by the work they have done.

Ask your neighbors if Dodd's Kidney Pills are not the remedy for sick kidneys.

## Note and Comment

Elsewhere on this page will be found a letter of appreciation which speaks for itself and without a doubt it expresses the sentiment of every person who attended these meetings.

We have, during the past few days, talked with a considerable number of farmers who were present at the various sessions of the Chautauqu and one and all considered the timewell spent. Numerous farm problems were solved for them, by the speakers, as was shown by the many questions asked and answered.

Without a doubt this event will be made an annual affair here at Monitor, and also be repeated at other points in the Province next year.

The splendid cooperation of both Dominion and Provincial Agricultural Departments was a big factor in making this first Chautauqua a complete success. All the speakers were experts in their various lines and we look forward with pleasure to the time when they will be with us again.

## WHY GOOD ROADS?

Good roads bring higher rental incomes.

Good roads mean higher land values.

Land owners should lead the road improvement crusade, for good roads mean more dollars in their pockets, and more pleasure for their families.

Good roads save time in hauling. Time is money.

Hauling costs are lowered by good roads, because the size of the load is limited by the worst spot in the road.

Good roads mean social improvement. "No man liveth unto himself alone," but bad roads tend toward rural isolation.

We can live but once. Why not enjoy the chance to go

where we please, when we please? The motor car and good roads make all distances short.

Town pleasures and country pleasures are only a stone's throw apart if joined by good roads.

The country boys and girls are less likely to leave the farm if good roads bring the neighbors nearer. Bad roads are a detriment to the farmer, but they are worse for the farmer's wife.

Well kept roads mean better rural schools. Our country boys and girls are entitled to as good school facilities as our town children enjoy.

The doctor has a better chance to save lives if good roads shorten the distance from office to farm.

Profit, pleasure, and public spirit demand improvement of the roads. We want 365-day roads.

To do good is better than to be done good.

It is hard to appreciate good advice that doesn't coincide with one's own desires.

A man's idea of a perfectly modest, innocent girl is one who knows enough to blush at things she oughtn't to know anything about.

## Letter of Appreciation

To the Editor

As a citizen of the village of Monitor and a farmer I wish to take this opportunity of expressing my sincere appreciation for the opportunity afforded myself, the town and district of attending the Farmers' Chautauqua held last week.

On attempting to review the immense amount of valuable information obtained it is impossible to decide which subject was the most interesting. One subject followed the other without loss of time and every lecture was of such vital necessity to the district that those who were not fortunate enough to take in the entire Chautauqua missed a golden opportunity.

It is hoped that a similar event will take place next year and from the interest shown this year, by the attendance, the management can look forward to a capacity house at each lecture and demonstration on farm topics.

JUDICIAL SALE OF  
FARM PROPERTY

Pursuant to the judgement and final order for sale, there will be offered for sale by public auction, by William Briggs, at the Post Office at Sedalia, Alberta, on

SATURDAY, APRIL 8, 1922  
at 2.30 o'clock in the afternoon

The East half of Section 6, Township 32, Range 5, West of the 4th Meridian, in the Province of Alberta, reserving mines and minerals.

The property is to be sold subject to a reserve bid which has been fixed by the Master in Chambers.

The Vendor is informed that the property is situated 3 1/2 miles from Sedalia. The soil is chocolate loam, and 320 acres are broken. The terms of payment are 10% cash on the date of the sale and the balance to be paid into Court within sixty days after without interest, or in the alternative the purchaser shall have the option of completing the said purchase by executing a mortgage which shall be a first mortgage on the land in an amount not to exceed \$1600.00 and by paying the balance in cash into Court within sixty days from the date of the date of the sale without interest. The said mortgage is to be for a term of five years on the usual form of the Vendor, repayable by instalments of \$100.00 each payable yearly, and the balance at the end of the term. Interest to be at the rate of 8% payable yearly, interest and repayments of principal to be made on the 2nd day of January in each year.

Other terms and conditions are the standing conditions of the Supreme Court of Alberta, approved by the Master in Chambers.

Further particulars may be had from Messrs Woods, Sherry, Collinson & Field, McLeod Building, Edmonton, Alberta, solicitors for the plaintiff, or from William Briggs, Sedalia, Auctioneer.

Dated at Edmonton this 7th day of March, A. D., 1922.

Approved: A. Y. B. R. P. Wallace  
M. C. C. S. C. A.

### WORLD HAPPENINGS BRIEFLY TOLD

Japan will establish a scientific laboratory on the South Sea Islands to study typhoons.

The new automatic phone service has been inaugurated in the city of Lethbridge at a cost of \$225,000.

Twenty-one drifters have left Petrolia for the oilfields of Mesopotamia. They will be engaged by the Anglo-Persian Oil Company.

Orders directing the return to the United States of July 1 of all troops now quartered on the Rhine were issued by Secretary Hughes.

Rum runners along the Canadian border will be hunted by wireless, according to advices by Commissioner Haynes from Col. Roy C. Vanderhook, head of the Michigan department of public safety.

The German steamer Antonio Delano arrived at Boulogne from Hamburg and embarked passengers and mails for the voyage to Buenos Ayres. She is the first Transatlantic vessel under the German flag to call at Boulogne since the war in regular service.

George Richardson, who blew the charge when the Light Brigade rode up to the guns at Balaclava, died recently at Liverpool. It is believed that he is the last of the gallant Six Hundred. He possessed 16 medals given for valor.

The hydrographic office of the U.S. Navy/Dept. issued a warning to mariners that the North Atlantic steamship lanes, normally used from February 1 to August 31, may be rendered hazardous by the presence of extensive ice fields.

"Papa" Malis, who was reputed to be the oldest schoolmaster in the world on the active list, has just retired on his well earned pension, aged 90 years. He had been a teacher for 70 years and absent from his desk only 12 days through illness.

### The Submarine Evil

Almost Useless Except for Attacks on Merchant Shipping

If we are to build submarines, and even more submarines than before the war, naval competition will be perpetuated in a new and dangerous form. Now can we regard the restrictions on their use which have been accepted at Washington as a sufficient safeguard against their future misuse. The restrictions are of importance, and we do not doubt that they have been adopted with sincerity, but such rules have been made before and then broken by nations confronted with imminent defeat. Experience has proved that submarines are almost useless except for attacks on merchant shipping, and if we are really determined to rule out such attacks from among the more widespread possibilities of warfare there is only one way to do it, and that is to scrap the submarine.—London Observer.

### A POISON STOREHOUSE IN EVERY HOME

You may not think so, but that's what happens to every one of us when the kidneys are affected. The kidneys are the filters that remove from the blood the waste-matter that acts like deadly poison on the vitality and health of the system. Dr. Hamilton's Pills stimulate the kidneys, expel fermenting matter from the bowels, restore the liver and stimulate all excretory organs. No medicine will clean up the system, tone the blood, make you feel fit and fine as quickly as Dr. Hamilton's Pills. Useful in every home. Dr. Hamilton's Pills of Mandrake and Butternut, 25c dealers, or The Catarrh-ozone Co., Montreal.

**White Packers Handle B.C. Herring**  
All herring packing is now completed and there are only about 1,000 tons left in the market to be moved to the Orient. Already 25,000 tons have gone forward to that destination. Over 50 per cent. of the herring-packed in British Columbia this year was processed by white packers. Four years ago Japanese packed 60 per cent. of this dry-salt cured herring, but last year this was reduced to 70 per cent. and this year to 50 per cent.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are tonic and health-giving in their effects.

### Radium Expert Dies

Professor Johan F. Fischer, who was popularly credited with knowing more about radium than any other man in Denmark, has just died at the age of 54.

He paid a heavy price for his knowledge. While experimenting in radium he lost several fingers. In 1921 he visited America.

### If You Have Neuralgia Rub on "Nerviline"

Apply Nerviline to the sore spot. Notice the warm glow that spreads deeper and wider as Nerviline's soothing influence is carried deep into the sore tissue. How quickly the pain is eased. In a little while you have forgotten it, the soreness has actually gone. For neuralgia, sciatica, rheumatism, Nerviline is a boon. Large 35c bottles. Sold everywhere.

### Irrigators to Meet

Convention to be Held at Maple Creek and Brooks in July

The annual convention of the Western Canada Irrigation Association for the present year will open at Maple Creek, Saskatchewan, on Wednesday, July 26th, and two days later will move to Brooks, Alberta. Some of the most prominent irrigators in the American Continent are being invited to address the convention, and in view of the growing importance of irrigation in Western Canada the meeting is promised to be largely attended. The largest single irrigation project on the American Continent is in Alberta, and irrigation development is going ahead at a rapid pace.

### BABY'S HEALTH IN THE SPRING

The spring is a time of anxiety to mothers who have little ones in the home. Conditions make it necessary to keep the baby indoors. He is often confined to overheated, badly ventilated rooms and catches colds which rack his whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will prevent colds, constipation or colic and keep baby well. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Beginning of the End  
Petrograd, named in honor of the Czar Peter the Great, who built it, is to be renamed Leningrad, a Moscow dispatch reports, in honor of Lenin, who unbuilt it.—Topeka Capital.

Mingard's Liniment prevents Spanish Flu

Attached to the Aquarium in New York City is a hospital where fish are treated for their ailments.

### Interested in Western Canada

American Farmers Are Anxious to Take Up Land Here

(By G. C. Porter, of Winnipeg)

Minneapolis, Minn.—Canadian Government Agencies at this point and the railroad Natural Resources Department Agents, are in receipt of letters from points as remote as California and Florida, from farmers who want to move to Western Canada. Some of them are from men who went to those States as recently as three years ago to try fruit growing, lured there by advertising companies owning large acreage. They are disappointed, and are anxious to get back North.

### Must Be More Co-operation

Co-operation by the people of Western Canada and more co-operation in helping get settlers on the land is what the railroad men, immigration Government agents and real estate men with whom I have talked emphasize as a prime essential if the land advantage is to be taken of the trend that is setting in from the States towards the vacant lands over the line.

### How It Can Be Done

Howard Everett, president of the Luce Land Company, speaks with wide experience in this field. He told me of the days when the Luce Company was taking thousands into Saskatchewan. They looked after their particular settlers and helped locate them on the land. There was not the co-operation and help for those new arrivals that he would like to have seen and such as is necessary if every settler taken in is to be anchored to the soil. The machinery was not there for the co-operation purpose. The spirit of encouragement was there but there was no organization. Mr. Everett did not think that this should be left to haphazard chance. There should be organized bodies to meet these new comers. If the people were worth advertising for and worth sending highly paid agents over the country for, they were worth taking care of until settled when they arrived at their destination.

### More Attention at the Border

Many of the men with whom I have talked emphasized another weakness that is proving most expensive. It is the handling of emigrants going into Canada when they are at the border. Of course, there must be immigration officers to interview these people seeking admission to Canada, but one Dominion Government agent told me that last year 250 being sent into the prairies to go on farms were turned back at the border by the Canadian immigration officers. Those familiar with the working of the Government Immigration Bureau in the States assert that they think a certificate from any one of these agents issued to a prospective settler in order that he can get his cheap railroad ticket on arrival in Winnipeg, should be sufficient evidence for the admission of such person on arrival at the border without further information.

Hard and soft corns both yield to Holloway's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

### Poise and Brains

No People on Earth Have Political Talent Equal to the British

The British are a very great people. The marriage of Princess Mary is only another example of how they manage to do the right thing before the final crack of doom. Remember the world war and how the British Empire came out of it bigger than ever. Look at Ireland—four years given up as hopeless. Think of Balfour coming to Washington and putting across the four-power treaty, while getting the naval holiday, and going home with both Japan and America the sworn friends of old John Bull. No people on earth today have political talent, experience and skill equal to the British. Congratulations to the former Princess, now a humble Viscountess; and, if you please, felicitations to old England on leading the world just by poise and brains.—Springfield Republican.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

Knives have been invented to be attached to cultivators to cut off weeds.

Mingard's Liniment For Cough and Colds

### DID PAIN DISTURB YOUR SLEEP?

The pain and torture of rheumatism can be quickly relieved by an application of Sloan's Liniment. It brings warmth, ease and comfort and lets you sleep soundly. Always have a bottle handy and apply when you feel the first twinge. It penetrates without rubbing. It's splendid to take the pain out of tired, aching muscles, sprains and strains, stiff joints, and lame backs. For forty years pain's enemy. Ask your neighbor.

At all drug stores—35c, 70c, \$1.40.  
Made in Canada.  
**Sloan's Liniment** (Pain's enemy)

It is said Italy's perfume manufacturers consume 1,860 tons of orange blossom, 920 tons of roses, 150 tons each of jasmine and violets, and 15 tons of jonquils annually.

### CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a Little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right out with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

### MONEY ORDERS

It is always safe to send a Dominion Express Money Order. Five dollars costs three cents.

### When Will There Be A Disarmament of Dining Tables?

Suppose everybody would recognize the fact that there's no gain but much loss in keeping up hostilities with the stomach!

Suppose the ancient aggravation of improper food on indignant digestive organs should be settled with guarantees of sensible diet and tranquil digestion!

The saving would be beyond all possibility of counting.

Yet millions go on declaring war on the stomach and accepting war in return—loading up on starchy, heavy, unbalanced and highly-seasoned food at breakfast or lunch—and wondering why comfort, happiness and efficiency are out of reach.

Grape-Nuts makes a friend of the taste and an ally of the stomach.

There's a charm and satisfaction to this delicious food which prompts appetite to say, "There's a meal!" and digestion to answer, "Thank goodness, here's peace at last!"

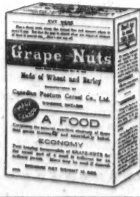

Grape-Nuts is the perfected nutriment of wheat and malted barley—sweet, crisp, and wonderfully nourishing. It digests quickly, and provides the necessary elements, including the vital mineral salts, for body, nerve and brain.

Order Grape-Nuts from your grocer today, and let a delighted taste pass a treaty of peace along to an enthusiastic digestion and assimilation.

### MONITOR CREAMERY

At the Organization Meeting of the Monitor Creamery Co., held Wednesday March 22nd, provisional officers and directors were elected and asked to make a thorough canvass of the district with a view of securing as correct an estimate as possible of the number of dairy cows available at the present time.

The actual cost of erecting a creamery in Monitor was laid before the meeting, \$7400.00 and it was decided to proceed with the organization of a company in the event of the canvass showing that there was sufficient produce available in the district to warrant its success.

It is impossible to prepare an exact account of all data and figures for publication this week but would ask those interested to watch the paper for the next few weeks and become acquainted with every angle of this proposition.

Officers elected were as follows:

President J. Aug. Hayes  
 Vice Pres R. A. N. Craig  
 Secy L. O. Gould  
 Directors: One to be chosen in each of the following Districts: Whittin and territory west of Monitor; Sounding Lake and territory north; Stonelaw and territory south; territory east.

## KIRRIEMUIR

A meeting of the business men of Kirriemuir was held in R. W. Fish's Store on Monday night, March 20th, to form a Board of Trade to further the interests of the town and district.

J. W. Howard was elected Chairman for the evening, and the following officers were then elected: J. W. Howard, Pres.; J. Berg, Vice-Pres.; R. W. Fish, Secy-Treas.

D. F. Cochran was elected as delegate to attend the convention at Consort to take up the matter of roads for this district. The blacksmith will be approached to find out if he is going to stay in Kirriemuir for the coming season. J. W. Howard was appointed to attend the meeting to be held in Kirriemuir on March 27th to take up the question of Roads, Phones, etc. A lengthy discussion was held on good roads, cleaning up the town, grading Main St. and rural phones.

Paid up members to date are: E. Morris, D. F. Cochran, L. A. Schon, D. M. Ross, R. W. Fish, J. W. Howard, J. Kee, J. Berg, C. Osberg, E. Berrens, E. Osborne, C. B. Robbins, F. Lamb, J. Howard, Jr. The membership fee is \$1.00.

Every farmer in the district is invited to join this Board of Trade and boost the town and district. Next meeting will be held in the E. Morris Store on March 29th at 8 p. m.
